

ANNA FRANTS

CV

Bio/Exhibition History

Russian artist Anna Frants' media installations are total environments that envelop the viewer in image and sound. Her work employs state-of-the-art technologies and is distinguished by precision and direct simplicity. Just as her Sterligovite predecessors conceptually redefined space in paint, Frants utilizes video and audio to reconfigure a viewer's reality. Frants divides her time between living in New York City and St. Petersburg.

Recent Highlighted Exhibitions
