Dear Paul,

I am thrilled to hear about galleryHOMELAND's latest endeavor, the EAST/WEST Project. Our office continues to support you in your mission to enrich our community with cutting edge contemporary arts.

EAST/WEST Project is an exciting cultural exchange project for our city and I hope that the artists and their respective communities gain insight and knowledge as well as help cultivate an international dialogue through contemporary art.

Essential to the success of the EAST/WEST Project is collaboration and community participation so we are thrilled to encourage others to participate and look forward to keeping up with your progress.

My best,

Sam Adams
Mayor
